Dear Hiring Manager, Scholarship Committee, or Admissions Representative,

My name is Alexis Hernandez, and I am grateful for the opportunity to introduce myself for future educational, career, internship, and scholarship opportunities. After reviewing the qualities many organizations look for in candidates, I believe my skills, work ethic, and interest in technology make me a strong candidate for future programs and opportunities.

I am a motivated high school student who has maintained strong academic performance throughout my school career. I have earned recognition including Principal Honor Roll Star in 2025 and Principal Honor Roll Scroll in 2024. I currently maintain a competitive GPA and continue working hard to improve academically and personally every year.

During my academic career, I have developed valuable technical and professional skills through both school and independent projects. I have experience coding websites using Visual Studio Code and working with programs such as Photoshop and GitHub. I also type at approximately 50 words per minute. Through these experiences, I have strengthened my creativity, problem-solving abilities, and attention to detail.

In addition to academics, I have completed approximately 20 hours of community service and gained work experience assisting my Father at Eriksson under the supervision of Luis. This experience taught me responsibility, teamwork, communication skills, and the importance of maintaining a strong work ethic. Whether working on school assignments, coding projects, or job responsibilities, I always try to stay dependable and focused on doing my best work.

My future goals include continuing my education and pursuing a career related to coding, technology, healthcare, or game design. I am especially interested in creating websites, developing games, and learning more about computer programming and software development. I hope to continue building my skills and gaining experiences that will help me succeed in a technology-focused career.

After reviewing my qualifications, I hope you will agree that I am a hardworking, curious, and motivated student who is eager to learn and grow. I would appreciate the opportunity to further discuss how my skills and experiences could benefit your program or organization. Please feel free to contact me at 559-482-4428 or by email at ahern-s156@chusd.org.

Thank you for your time and consideration. I look forward to hearing from you soon.

Respectfully,

Alexis Hernandez
